HARDING TERMED ANTI-UNION MAN

Alleged Activities in Home
City Told By Aides
for Sam Gompers

NEW YORK, Nov. 1.—Samuel Gompers, president of the American Federation of Labor, in a statement said investigation conducted in Senator Harding's views and practices in the industrial life of his home city, proves "his duplicity in relation to his claim of friendship for the working people and gives a full picture of his ardent championship of industrial enslavement."

The Republican candidate, the statement said, is about to be "an intimate and guiding participant" in the industrial life of Marion, where, it added, there are no trade union agreements and wages are low. Mr. Gompers charged that through a system established by the Employers' association, of which, he said, Senator Harding is one of the leading members, workers active in their unions, are discharged and unable to obtain employment in any other manufacturing plant.

PRACTICES CHARGED.
The investigation upon which Mr. Gompers said his statement was based was conducted by John R. Frey, editor of the International Molders' Union Journal, and Chester M. Wright, assistant editor of the American Federationist.

The statement asserted the Manufacturers' association of Marion, is organized primarily to prevent the organization of wage earners, "determine the maximum wage to be paid the employees of any of its members and provides that no employee can secure employment from any other than his present employer without the consent of the employer."

TWO INSTANCES CITED.
"We cite two instances out of many verified," the statement said, "to indicate the methods and their workings. Six girls recently left a manufacturing plant and obtained better positions in a candy factory. Upon being notified of this, the Manufacturers' association forced them to return to their previous employer. A molder, securing a better position in another foundry, was forced to return to his previous employer or leave Marion. The Manufacturers' association of Marion imposed upon its employees a condition of involuntary servitude."

Changes in existing national guard organizations which will be necessary before then can be considered as units of the corps area allotment.

Additional allotments for each state for the current fiscal year, when necessary for the purpose of bringing the allotted strength up to 500 enlisted men per senator and representative in congress.

Allotments for each state for the next fiscal year, such as will bring the allotted strength up to 450 enlisted men per senator and representative in congress.

Arrangements whereby the corps area commander can obtain in July of each year, thereafter, as long as may be necessary, the views of the state authorities as to a suitable allotment for the following fiscal year, and other points having a bearing on the subject of allotments.

GUARD AND ARMY MEN TO MEET ON COAST

SALT LAKE, Nov. 1.—Adjutants general of various states with national guard units belonging to the Ninth corps, will attend a conference at San Francisco within a short time to discuss the reorganization of the Ninth corps area, of which the Utah National guard is a unit.

Orders were received yesterday by Lieutenant Colonel Fred Jorgenson from Brigadier General Jesse M. Carter, chief of the militia bureau, directing that the conference be held. The time will be fixed at some date mutually agreeable.

The Ninth corps area will include the Tenth and Forty-first divisions of the reorganized army. Subjects to be taken up at the conference, as outlined by General Carter, are as follows:

The basic plan of reorganization, allotment of national guard units to corps areas; tentative allotment of units to states.

Changes in existing national guard organizations which will be necessary before then can be considered as units of the corps area allotment.

Additional allotments for each state for the current fiscal year, when necessary for the purpose of bringing the allotted strength up to 500 enlisted men per senator and representative in congress.

Allotments for each state for the next fiscal year, such as will bring the allotted strength up to 450 enlisted men per senator and representative in congress.

Arrangements whereby the corps area commander can obtain in July of each year, thereafter, as long as may be necessary, the views of the state authorities as to a suitable allotment for the following fiscal year, and other points having a bearing on the subject of allotments.

99,120 TONS OF COAL
MINED DURING WEEK

SALT LAKE, Nov. 1.—Reports of Utah coal mines, received by Carl A. Allen, engineer of the United States bureau of mines, shows that the coal production for this state amounted to 99,120 tons during the week ending October 23.

This report does not include two of the largest mines, which were reported that out of 572 hours in which work could have been performed, 628 hours of work were accomplished.

The 129 hours of idleness was attributed to coal shortage and the loss of the remainder of the time was due to labor shortage and other causes.

STUDENTS AID BEET CROP HARVESTING

POCATELLO, Ida., Nov. 1.—McCannon high school closed this week, students having been excused to harvest the beet crop in that vicinity. The labor problem is extremely acute south of Pocatello and there was serious danger of total loss of the crop, because of early snow and cold weather. Most of the crop will be shipped during the coming week, it is reported.

SMALLPOX MAY KEEP VOTERS FROM POLLS

POCATELLO, Ida., Nov. 1.—Reports to County Clerk Robert G. Early show that many voters of Bannock county will be kept away from the polls tomorrow because of smallpox. In the district of Central, fifteen families are under quarantine for this disease. There are also several cases in Bancroft, Chesterfield and McCannon. There are but two or three cases in Pocatello.

HORSEMAN KILLED IN ACCIDENTAL FALL

POCATELLO, Idaho, Nov. 1.—Thrown from a horse at Garden Valley, yesterday, Isaac Groomer, was accidentally killed. The accident occurred on the J. P. Mills ranch.

Groomer was born in Missouri and was 54 years of age. At one time he was a guard at the state penitentiary. There are no relatives in this state.

TO START ON SEWER.

DELTA, Oct. 31.—The town board of Delta has sold its bonds for the sewerage system and yesterday received the money from the purchase. The work of installing the system will be commenced at once.

tion of the type-setters employed by the Marion Star.

This year the carpenters' union of Marion, requested the Marion Lumber company to confer with the union committee on the question of wages. The company refused to discuss the question.

At about the same time, the carpenters' union requested the Prendergast Lumber company to confer with its committee relative to wages and hours of labor. This company also refused to discuss the question.

Senator Harding is a director in the Marion County bank.

PRINTERS ORGANIZED.
"On Senator Harding's newspaper, the typesetters were organized overnight during his campaign for the town. The heckling of a union printer at one of his meetings, resulted in a telegram from him to his manager, instructing him to unionize the composing room immediately."

The statement charged the Marion Manufacturers' association with guarding its membership so closely that it is impossible to secure a roster of members and that its meetings are held behind locked doors.

"He is a director of the Marion Bell Telephone company, which is a member of the Manufacturers' association."

"He is the owner of the Marion Star and as such is directly a member of the Manufacturers' association."

"Carrying out the anti-union policy of the Manufacturers' association of Marion, these corporations are strictly non-union, with the single exception."

WAVES "WITHERED ARM" TO JUDGE IN COURT

(By International News Service)
SAN FRANCISCO, Oct. 30.—Richard Barry, beggar, who sat on the sidewalk in Third street with an apparently withered hand to his breast, was arrested by William Harrington, a plain clothes officer.

The officer brought Barry to the city prison and gave instructions that he watched while he slept that night. The following morning the prisoner appeared before the judge with his arm held to his breast.

"Take your hand down," the court ordered. Barry replied that he couldn't and asked that a doctor be called to prove his statement. But the plain clothes man informed the judge that the hand had relaxed when Barry slept.

Sixty days in the county jail," the judge pronounced. But Barry asked for twenty minutes in which to get out of town.

"There's your paralyzed arm!" exclaimed Barry, making an oratorical gesture with it. He went.

The tanning of ostrich skins is a growing industry in South Africa.

WHAT WILL YOU TELL YOUR GRANDSON?

—WILLIAM HOWARD TAFT

"My friend, suppose you were a senator or suppose you had power to influence a senator and you influenced him against the League of Nations. Suppose the league came in and worked those benefits that we believe it will work and twenty years later, after that had been demonstrated, your grandson should come up and say: 'Granddad, why did you vote against the league?'

"Suppose you were a man who voted against it because you hate Mr. Wilson—men have told me that they hated Mr. Wilson so they were going to vote against the league. I said to one the other day: 'My dear sir, don't you see how utterly illogical and absurd you are? Why, you are allowing yourself to be influenced by a man whom you hate, to oppose something you would otherwise support. Just think, you magnify your personal feelings toward him and allow his influence on you to be so great that you do not examine the merits of question which concerns your country.'

"Now then, if this grandson of yours twenty-five years from now, should come to you (and you had voted against the league because you hated Wilson), and when he should ask you in the light of the beneficial operation of the league, 'Granddad, why did you vote against the league?' what will you tell him? You will do one of two things. You will either say, 'Run away, grandson, you do not understand those issues,' or else you will lie about it.

"But there are certain issues that rise above party that transcend all parties and all party triumphs that are merely temporary. This issue (the league) is as fundamental as the Declaration of Independence, the Constitution of the United States or the issues of the Civil war."—From an address by former President William Howard Taft before Wisconsin Bar Association, July 2, 1919.

Governor Cox

—"I favor going into the league."

Sen. Harding

—"I reject the league; I have no program."

Herbert Hoover Said

—"If the league is to break down we must prepare to fight."

STATE AND IDAHO NEWS

Latest Items of Interest From Utah and Gem State

'SCHOOL WEEK' IN UTAH URGED

U. S. Commissioner of Education Suggests State-wide Observance

SALT LAKE, Nov. 1.—Governor Bamberger has received a letter from Philander P. Claxton, United States commissioner of education, urging that Utah take part in a nation-wide campaign for the improvement of the schools and other agencies of education, including larger appropriations for the pay of teachers and for buildings and equipment.

He suggested the week of December 5 to 11, the first full week in December, be observed as "school week." He requests the governor and the chief school officers of each state and territory to take such action as may be necessary to cause the people to use this week "in such a way as will most effectively disseminate among the people accurate information in regard to the conditions and needs of the schools, enhance appreciation of the value of education and create such interest as will result in better opportunities for education, and larger appropriations for schools of all kinds and grades."

Commissioner Claxton suggests a proclamation designating "school week," and enumerates the press, the pulpit, various religious organizations, motion-picture houses, universities, colleges, elementary and high schools and their teachers, school societies and even the classroom themes as agencies. He asked for meetings on Friday afternoon or evening, December 20, in every schoolhouse, in city and country, in the interest of education.

TO ESTABLISH FLYING FIELD ON WEST COAST

POCATELLO, Idaho, Nov. 1.—J. Master Spencer of St. Louis, who is in Pocatello visiting his aunt, Mrs. B. V. Burke, will soon leave for Los Angeles for the purpose of establishing a flying field there. He is an automotive engineer and airplane pilot and served in France. Mr. Spencer has established flying fields at Denver, Pensacola and Chicago and has passenger planes flying from these points.

The first message by wireless telephone was sent across the Atlantic on October 23, 1915.

STOCK MEN TO MEET IN S. L.

Twelve States to Be Represented at Conference December 14-17

SALT LAKE, Nov. 1.—Twelve states will be represented at the conference of livestock associations, to be held in Salt Lake December 14 to 17. States that have been invited to attend the conference are Utah, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Washington and Wyoming.

These states, with approximately one-tenth of the population of the United States, own about one-third of the cattle and supply the bulk of markets.

One of the main points to be taken up at the conference is arriving at some method of gauging the flow of cattle from western states to the eastern markets, so that those markets will not become oversupplied at times with resultant loss to the shippers.

Another point to be taken up and argued is some definite policy on the part of the stockgrowers of the public land states looking to the federal control of public-grazing lands, similar to that already established by the national forest service.

The conference will report by resolution passed at the meeting here, or by committee, to the meeting of the American Livestock association to be held at El Paso, Tex., in January.

It is possible that the Utah Cattle & Horse Growers' association will hold its meeting about the same time as this conference, instead of on the regular meeting date in January.

POCATELLO RECORDS LARGE REGISTRATION

POCATELLO, Idaho, Nov. 1.—The largest registration in the history of the city was recorded Saturday, following the final rush of voters who registered on the last day.

Democrats of the city are making an effort to give Mayor Whitaker a huge majority in his race against Congressman Smith for a seat from this district in congress.

Republicans are trying to build up a huge vote for Governor Davis. Nearly 150 absent voters ballots have been sent in by traveling men and railroad workers who will be away tomorrow.
